Thanks for the update. Is there an estimated start date?

FYI

Note the significant \$ increase from the estimate I put on your board.

Greg,

Please find attached the scope and estimate for the engineering, equipment, installation and operation for the temporary plugs of the 010 Toe-drain culvert. Please call with any questions. You may want to round up the total amount to \$300K or \$350K but I will defer that to you.

Thanks,

Mike Glagola
